There comes a time in all of our lives when we move forward for growth and seek for a new nest to call home.

I have been incredibly honored to be a part of each and every one of your lives. I hope my service will benefit you for years to come. I feel truly fortunate to have found a new space nearby us and continue a tradition of excellence.

As some of you might already know, this new office is called Advanced Dental Arts NW and my colleague dentist Dr. Russell Teasdale has been practicing in the same location for several decades, providing high-quality care to our community. Dr. Teasdale and I have been working closely together for several years and he has been focusing on TMJ/TMD care, and life-extending care for airway and apnea issues. He has recently decided to restrict his time to these specialties.

So it is with great pleasure to announce the merger of Sup Lee Dental with Advanced Dental Arts NW.

I will be working at full capacity at our new location from March 6th, 2023.

Dr. Teasdale, an Oregon native that has been serving the community as a general dentistry will be available in the same building for those of you who are seeking TMJ care and airway/sleep apnea treatment.

I am so grateful to be able to provide you the same level of high quality and personalized care at our new spacious and state of the art office and I look forward to seeing you for all your dental needs. If you have any questions, please feel free to contact us.

Sincerely,

Hyungsup Lee DMD
